High Speed Rail Canada Public Educational Seminar Comes to Red Deer Alberta

(RED DEER, ALBERTA) August 24th, 2009
High Speed Rail Canada in cooperation with the City of Red Deer, Red Deer County and the Red Deer Chamber of Commerce are hosting on a high speed rail educational seminar for the public in Red Deer on Wednesday, October 14th 2009 from 5:30 pm to 9:00 pm at Red Deer County's Council Chambers, 38106 Range Road, 275, Red Deer County.

High Speed Rail Canada, -

<http://highspeedrail.ca>

a citizen's national advocacy group dedicated to the education on, and the implementation of, high speed trains in Canada, will be in Red Deer for its 4th in a series of Canada-wide public seminars on high speed rail.

Paul Langan, Founder of High Speed Rail Canada states, *"Public opinion polls have clearly shown that Albertans want passenger rail service to return between*

Calgary, Red Deer and Edmonton. This educational seminar will give the public a chance to learn and ask questions about the different modern passenger rail options that are available."

The symposium will consist of speakers from some the world's largest high speed rail manufacturers such as Alstom Transportation and Siemens Canada.

There will also be a presentation from Alberta Rail Inc. Residents will then have a chance to ask the speakers questions during a panel discussion. Modern high speed rail videos will be shown.

There is no cost to attend the seminar but seating is limited so pre-registration is highly recommended. Participants can register by calling or emailing Lindsey Hutton at the Red Deer Chamber of Commerce at 403-347-4491 lhutton@reddeerchamber.com
